EXPECTING 400 ANTIQUE CARS HERE JUNE 19

More than 400 antique autos, some dating from 1898 and the early 1900s, will arrive here June 19 for the annual spring "Eastern Meeting" of the Antique Automobile Association of America.

Cars from as far away as Canada and Florida and as far west as the Mississippi River could be among the visitors to the town for the weekend event.

Edward C. Beard, E. Lincoln Ave., of the Gettysburg Region of the Antique Automobile Association, host unit for the gathering, said: "There could be 5,000 old cars here — the national organization has 15,000 members and this meet is open to everyone in the Eastern part of the U.S."

ARRIVE JUNE 19

But Beard said preparations are being made for "only" about 400 cars "because only the best, those cars perfectly restored, are expected for the competitions."

The ancient cars are scheduled to arrive Friday, June 19, to register for the events of June 20, 21. The Hotel Gettysburg will be registration headquarters and the town has given its official blessing for the antique autos to park there during the event.

After registering, the owners of the cars will drive them to land owned by Gettysburg College north of Broadway between the Mummshausen and Biglerville Rds. There they will be parked in rows for display and for the events of the following day. Saturday, June 20, at 11 in the morning judging will begin, with Beard as chief judge.

"If a consumer study were made, I doubt that it would show that 50 per cent of the population have ever used apple products and of the homes with apple products on their shelves I think this study would reveal only a limited number using them as extensively as they might, if they were all acquainted with the versatility of apple products."

WOMEN HEAR DR. QUANBECK

Dr. Warren Quanbeck, visiting professor of systematic theology at the Gettysburg Theological Seminary and an official observer of the Lutheran World Federation at the Ecumenical Council in Rome, was the guest speaker at the supper meeting of Christ Lutheran Church Women on Monday evening.

Dr. Quanbeck said, "The expected outcomes of the Ecumenical Council will follow long periods of discussion in the atmosphere of prayer. The general trend implies a new attitude of the Roman Church toward the world of the 20th Century, a new attitude toward other church bodies, a new attitude of criticism, a new attitude toward the Bible in reference to scriptural authority and a new look at worship itself. A history of 400 years will not change immediately, but this is a matter of concern for all Christians as to how they respond to free conversation."

Mrs. A. E. B. Jones, president, conducted a brief business meeting. Mrs. Harold Dunkelberger presented a report of the district convention of LCW held in Carlisle on April 11. The following guests were introduced: Mrs. Warren Quanbeck, Mrs. George Landenfeld and Mrs. Thomas Brown. New members welcomed were Mrs. Charles Immel, Mrs. John Kerr, Mrs. John Hertzog and Mrs. William McCurdy.

Mrs. Martin Cronlund presented the proposed circle leaders and program topics after which members met in the various groups to organize for the coming year.

The leaders are Mrs. Herbert Schmidt, Circle I; Mrs. Clarence Benson, Circle II; Mrs. John Keller, Circle III; and Mrs. Robert Fryling, Circle IV.

The members of Circle V, Mrs. Howard Williams, chairman, were the hostesses in charge of the arrangements for the meeting.

Approximately 1,200 FHA chapter delegates, alternates, chapter mothers and teacher advisers will attend the Penn State convention.

Loan Applications Are Being Received

Loan applications are now being accepted from farmers who want to buy farms of their own, Daniel A. Paddock, county supervisor for Farmers Home Administration, said today. These loans may be paid over a 40-year period at five per cent interest.

Farm Ownership loans, Mr. Paddock said, also are used to purchase additional land needed for growing additional feed. They may be used for making improvements in the buildings or land or for other permanent improvements needed for a better income, such as recreational enterprises. Other uses of FHO loans include refinancing debts, installing water systems, providing land drainage, improving woodland, constructing milk houses, installing bulk tanks, installing furnaces and bathrooms and many other improvements.

Recreational enterprises include camping grounds, swimming facilities, tennis courts, riding stables, vacation cottages, lake and ponds for boating and fishing, docks, nature trails and picnic grounds.

Further information may be obtained by contacting the county office of the FHA in the Adams Electric Co-operative building, rear of N. Stratton St.

Nominees must attend the ordeal and initiation ceremonies which are held at Camp Tuckahoe periodically.

MAN IS HURT IN EXPLOSION

Two employees of the rod mill of Hanover Wire Cloth Company were injured when a gas-fired furnace exploded Tuesday night about 10:30. Both were treated at Hanover General Hospital.

They were identified as Larry Sterner, 29, Hanover, treated for a cut on the right side of the scalp and bruises of the right shoulder, and Harold W. Smith, 36, of 503 Delone Ave., McSherrystown, treated for first degree burns about the face and contusions of the right arm.

E. Burnell Frock, plant general manager and vice president of Continental Copper and Steel Industries, Inc., New York City, owners of the plant, estimated damage to the mill at \$35,000. He said the loss is partly covered by insurance.

Fire Chief John C. Fuhrman said no fire loss resulted from the explosion. Members of Hanover and Eagles Fire Companies used exhaust fans to remove fumes from the building.

Frock said 11 men were working in the wire drawing department of the rod mill where the explosion occurred.

At the peak of the harvest season, 3,000 trucks and cars roll along the Aleppo-Ragah Road in Syria, daily.

COUNCIL MAY ACCEPT NEW TOWN ALLEY

McSherrystown borough council made preliminary plans Monday night to accept an alley between Stambaugh and Fourth Sts. after a delegation of property owners pointed out the need for repairs to it.

Known as Ridge Alley the property owners said they had been under the impression the borough had accepted it since council had paved it several years ago.

However, they said, after checking, it was learned the borough did not own it and they formally asked council to accept it.

NO COMPLAINTS

Borough Engineer William E. Sees Jr. was instructed to check the alley and see if it meets specifications. Under a 1958 ordinance, no streets or alleys can be accepted unless adjoining property owners pay for the initial cost of construction.

If the alley meets minimum specifications, Solicitor Ronald Hagerman will prepare a deed of dedication, to be signed by all adjoining property owners, for acceptance by the borough.

Mayor Edward DeCheubell reported that he had received no complaints about improper activities taking place at the quarry on Ridge Ave.

DISCUSS BURNING

He was given permission to have the police department enforce the curfew there and forbid all persons from trespassing on the property, particularly after dark.

He expressed regret that children who were behaving on the property would have to be included in the restrictions. After hearing Dan Colgan on consideration of an ordinance to forbid burning trash in the borough, council decided to obtain a copy of the Hanover ordinance for further study and discussion.

Council said it had received complaints from housewives who would hang their wash and then have to withstand smoke from trash burnings.

GARBAGE SYSTEM

Councilman Cyril Noel also suggested that some thought be given for a borough operated garbage and trash collection system.

Council agreed to move a fire hydrant from in front of the former Moose home to Fairview Ave., and Stambaugh St. McSherrystown Fire Chief Eugene Murren also suggested that new hydrants be placed at Ridge Ave. and Oxford Ave., and DeLone Ave. at Fourth St., but no action was taken on the matter.

Tax Collector Thomas Storm reported on the delinquent and uncollectible taxes and those written off the books due to Mr. Sees reported that plans for additions to the sewer plant would be

College To Erect Chapel

Plans for a new \$200,000 chapel for Gettysburg College were outlined Saturday by Dr. Henry W. A. Hanson, president, at the annual meeting of the board of trustees. The new structure will be of colonial style architecture to harmonize with other campus buildings and will replace Brua chapel, which is now in use. Seating capacity will be 1,100 as compared with the 600 capacity of the present structure. Dr. Hanson announced that an unnamed benefactor had donated \$25,000 toward the cost of the chapel which will probably be around \$200,000. The board also decided upon the addition of a third professor to the staff of the political science department of the college along with the proposed changes in the pre-medical course. Other plans of the administration include the addition of a vocational sports program to permit guidance service for students and an increase in the intra-mural sports program to permit participation for all students. Frowning upon all student marriages, the board voted that all secret student marriages shall result in the immediate expulsion of the students involved.

Miss Virginia Hershey's violin pupils gave a recital Tuesday evening at the York Springs Lutheran church. Participating in the program were pupils from Carlisle, Harrisburg, Gettysburg and York Springs. Those taking part from Gettysburg were Camilla and Frances Mortensen, Phyllis and John Schwartz, Barbara Wolff, Emily Gotwald, Lena Hartzell, Sarah Ann Coffman, Grace Spangler, Mary Louise Spangler, Barbara Cline, Madeline Ann King and Olga King.

Secure Positions: Mahlon P. Hartzell Jr., East Lincoln Ave. and Walter Kuhn, Hanover, formerly of Gettysburg, have secured positions with Corkran, Hill and Co., Inc., Baltimore. They will report for work next Monday. Both were graduated from Gettysburg College this week.

Change Residence: Mr. and Mrs. Harold H. Reuning moved today from the Blue Parrot apartments to 68 West High Street.

John B. Keith has completed the year's work at the University of Michigan law school and has returned to his home on Carlisle Street. Following the close of the school term he went to Windsor, Canada, where he saw the King and Queen of England.

British Rulers Welcomed By Roosevelt: Washington (AP) — A smile and a friendly handshake from President Roosevelt and the bombing salute of military honors welcomed King George of Britain today to the capital of a republic grown great from thirteen one-time English colonies. Their faces crinkled into cordial smiles as their hands met as if to symbolize ties of friendship between two English-speaking peoples who parted ways in 1776. Secretary of State Hull, who accompanied King George and his Queen from Canada, introduced them. "My President, I have the honor to present their Britannic Majesties," Hull said. "How are you? I'm glad to see you." Mr. Roosevelt said. The King and Queen then greeted Mrs. Roosevelt and Brigadier General E. M. Watson, the President's military aide. The royal couple and the

Today's Talk

PASS IT ALONG

If you hear of something good said about a person, whom you may or may not know, pass it along. You can't circulate too many good things about a worthy human being. It gives encouragement to those who are not so good. It makes them want to be good!

If you read a good book, see a fine play or movie, tell people about it. Invest that enthusiasm of yours. Transfer your love of the fine things in life to others. Give them something that will enrich their minds, and enable them to pass it along.

Most of the ideas expressed in these day-by-day talks have come about from reading, talking to people, thinking upon the many things in nature, and from what I have seen as I walked and traveled about. All I do is simply pass these ideas along.

Too many people pass the wrong things along. Gossip, lies, misinformation, idle talk and mere hearsay do a deal of damage. But you never know how far fine things travel. They keep going for years. Good things never die out. Remembered kindnesses keep traveling on in newer ones, inspired by the older ones. Encouragement always travels.

I feel quite sure that a great portion of the books in one's library, which have been a source of great joy to the owner throughout the years, have been read and gathered largely because of the good things said about them and the urgent enthusiasm of people with whom the owner has talked and who recommended them to him or her.

One can never be too grateful for what people have passed along to one, and so I suggest that you who read this talk keep the idea in mind and pass along to others the joy that has been given to you. It will make that joy just that much greater. The best conversationalist is that one who will give the most and best ideas, or information, to pass along. That's what knowledge is for — to enrich one's own mind, and then to pass the same knowledge along to enrich the minds of the many.

EDUCATION

I think that I would rather teach a child
The joys of kindness than long hours to spend
Poring o'er multiple and dividend;
How differing natures may be reconciled
Rather than just how cost accounts are filed;
How to live bravely to its end
Rather than how one fortress to defend
Or how gold coins once gathered can be piled.

There is an education of the mind
Which all require and parents early start,
But there is training of a nobler kind
And that's the education of the heart.
Lessons that are most difficult to give
Are faith and courage and the way to live.

Optimist Boys' League

The Rebels and Warriors battled for eight innings before darkness broke up a 0-0 contest Tuesday evening in a well played game by both teams.

The Rebels out hit the Warriors 6-2, but were unable to put any solid blows together. Dave Lovett tripled for the Warriors in the eighth inning with no outs. However, Jerry Sites, who turned in a fine pitching job, fanned the next three batters to retire the side. Sites also collected three of his team's safeties. The only other Warrior hit was a single by Larry Holmes.

Upper Adams Little League

A trio of close games marked the opening of the league season Tuesday evening.

At Bendersville the Biglerville Red Sox edged the Yankees 9-8 in a seven-inning affair. The winning run was unearned. R. Byers was safe on an error, raced to third on a single and scampered home on an error at third base on the throw in.

Greg Weaver, who struck out 14 in his six innings of pitching for the Yankees, smacked a bases loaded homer in the sixth inning to tie the score and send the game into extra innings. R. Heller homered for the Sox in the third.

Score by innings:
Red Sox 000 004 0-9
Yankees 003 014 0-8

Batteries: Red Sox, L. Warner, S. Heller and M. Heller; Yankees, Weaver, Cook (7) and Cook, Weaver. Winning pitcher, Cook, Loser, S. Heller.

All of the scoring came in the fourth inning at Bendersville where the Cardinals nipped the Bendersville Braves 3-1.

The Cardinals got their three runs when Steve Guise walked five batters in the fourth. A sacrifice fly and an infield hit by John Weikert brought in the runs.

Guise pitched effectively for the losers and gave up but five hits. His wildness in the fourth proved his downfall. Mike Routsom smacked a pair of hits for the Braves with G. Taylor poling a triple and S. Guise a double.

SADECKI HANDS 1-0 SHUTOUT TO NL LEADERS AS PHILS SPLIT

By MIKE RATHET

Associated Press Sports Writer

Ray Sadecki certainly has matured quickly.

Two years ago he was being called a 10-year-old boy. Now Sadecki's 23—and the hottest pitcher on the St. Louis staff.

Sadecki gave still another indication of his transition Tuesday night, with a six-hit, 1-0 victory over Juan Marichal and the National League leading San Francisco Giants.

It was the first shutout of the season and the sixth straight victory as a starter for the onetime bad boy of the Cardinal staff.

SENT TO MINORS

Two years and four days before he had stepped to the mound against Cincinnati and faced just five batters. When he trudged off the mound, he had been tagged for five runs on two homers, a single and two of his own errors.

St. Louis Manager Johnny Keane, flushed with anger, cited Sadecki for acting "like a 10-year-old boy" and said his performance was "the worst exhibition of effort I've ever seen on a major league diamond."

Sadecki countered: "I don't see how I can pitch anymore for a guy like this," and said he was quitting the team.

Cooler heads prevailed and Keane and Sadecki wound up shaking hands. Sadecki also wound up in the minors.

ROOKIE STOPS PHILS

Last year Sadecki returned and was 10-10. Then he got off to a quick 0-3 start this season. But he hasn't lost since a starter, his one defeat coming in a relief role. His latest victory snapped a four-game St. Louis losing streak and cut the Giants league lead to one game over Philadelphia.

The Phillies split, ending a four-game skid with a 4-3 first game victory before Pittsburgh rookie Steve Blass stopped them 4-0 on four hits in the nightcap.

In the only other single game, Cincinnati edged the Los Angeles Dodgers 2-1. Houston defeated Milwaukee 6-5 and 4-1 while the New York Mets edged the Chicago Cubs 6-5 in 12 innings before losing 5-2.

ALLEN HITS HOMER

Marichal, now 8-2, had allowed only three hits when the Cardinals finally struck for the game's only run in the ninth. Curt Flood started things with a single, moved up on a sacrifice and raced home on a single by Charley James.

Marichal collected two of the Giants' hits, but muffed a sacrifice in the third inning that probably cost a run. With Gil Garrido on second, Marichal missed a bunt and Garrido was thrown out at third. Harvey Kuenn then singled.

The Phillies broke through in the first game when Richie Allen hit his 11th homer, the first for Philadelphia in 75 innings. Art Mahaffey, however, couldn't hold a 4-0 lead and needed Ed Roebuck's relief help after Jerry Lynch closed the gap with a three-run homer.

COLEMAN HOMERS

Blass pitched his first major league shutout in the nightcap, bringing his record to 3-2 with heavy hitting support by Lynch and Bob Bailey. Lynch smacked a key two-run double for the Pirates and Bailey connected for a homer.

Gordy Coleman's homer in

the second—the only hit off

Dodger starter Joe Moeller in

seven innings—and Marty Ke-

ough's eighth-inning single pro-

duced the Reds' runs. Cincinnati

starter Jim O'Toole allowed

only two hits in seven innings

but went out when Keough bat-

ted and the Dodgers scored

their run against Sam Ellis.

Dick Farrell brought his re-

cord to 9-1 for the Colts with his

sixth straight victory but need-

ed Hal Woodeshick's ninth in-

ning relief help. With one run

in and two on, Woodeshick got

Joe Torre to hit into a double

play, and struck out Ed

Mathews.

BURDETTE WINS

Don Nottebart won his first

game after seven losses with a

five-hitter in the nightcap. Bob

Aspromonte hit his second homer

of the night in the eighth in-

ning—only the second hit off

Bob Sadowski—and started a

four-run surge that won it for

the Colts.

The Mets won the opener

against the Cubs when Jesse

Gonder singled with the bases

loaded in the 12th inning, cap-

ping a two-run rally. Larry

Bearnarth pitched 7 1/3 innings

of hitless relief ball and wound

up the winner, with a six-hit, 10-

inning performance.

Lew Burdette, acquired from

St. Louis, won his first start for

the Cubs in the nightcap. The

decisive run came across in the

sixth on a double by Billy Wil-

liams and Ron Santo's single.

PHILADELPHIA (AP)—Three college baseball players have been signed by the Philadelphia Phillies, the National League club announced Tuesday.

They are outfielder Steve Kolinsky and lefthanded pitcher Larry Sheckman, both of whom have completed their junior year at Temple University, and pitcher John Shew, who was graduated from the University of Delaware.

The three will report to the Miami Marlins of the Class A Florida State League.

ORIOLES LOSE TO WHITE SOX AS YANKS BOW

By HAL BOCK

Associated Press Sports Writer

Don't feel sorry for J. C. Mar-

tin. Let Ray Katt, Gus Trian-

dos, Joe Ginsberg and Charley

Lau hand out the sympathy.

They're the ones who know what

it's like to try and catch the

butterflies Hoyt Wilhelm throws.

Martin had one of those night-

marish evenings that all of Wil-

helm's catchers experience now

and then as the White Sox

whipped the second-place Balti-

more Orioles 9-5 Tuesday and

extended their American League

lead to 1 1/2 games.

Juan Pizarro was breezing to

his seventh victory with a 6-1

lead through seven innings and

Martin was taking it easy while

Camilo Carreon handled the big

mitt.

FLUTTERBALL TROUBLE

Three Oriole hits in the eighth

brought Al Lopez out of the Sox

dugout on the run and he called

for Wilhelm. When the veteran

reliever got the high sign, it

meant Martin had to go to work

too and that's when the trouble

started.

One of Wilhelm's flutterballs

got away and Sam Owens, who

was on third, started for the

plate. Martin, who is used to

this sort of thing, made a quick

recovery and Owens pulled up

short. J.C. fired to third to try

and get the runner but the ball

sailed into left field and the run-

ner scored.

Moments later another Wil-

helm knuckler fluttered away

and moved Norm Siebern to

third. He later scored on Al

Weis' throwing error.

In the ninth J.C. allowed two

more pitches to get by, setting

up the Orioles' final run. In

case you haven't been counting,

that's three passed balls and a

throwing error in two innings of

catching Wilhelm.

SENATORS SWEEP PAIR

In other AL games Tuesday,

Washington swept two games

from Kansas City 8-4 and 5-1.

Los Angeles stopped Cleveland

5-1, Boston whipped New York

5-2 and Detroit walloped Minne-

sota 16-1.

HIS 14TH SAVE

Martin once said Wilhelm's

knuckler "dances like it was

something bewitched," but all

he has to do is catch it. Pity

the poor guys who have to

swing against it.

The aging knuckler lowered

his earned-run average to 1.50

with his 14th save as the streak-

ing Sox won their 11th game in

the last 15.

Pizarro, who ran his record to

7-2, had the key hit for Chicago,

a two-run single in the five-run

White Sox' fourth.

SIX HINTON HITS

Chuck Hinton slammed six

hits in the doubleheader for the

Senators and ran his average to

.350. Buster Narum and Tom

Cheney went the distance to

gain the victories. It was Che-

ney's first triumph since July 4

of last year.

Chuck Cottier's three-run

homer helped Narum overcome

a shaky start in the opener and

Mike Brumley's bases-loaded

triple eased Cheney's way in the

nightcap.

Fred Newman threw a six-

hitter at the Indians and Bob

Perry cracked his first home

run as the Angels collected 13

hits.

Max Alvis homered for Cleve-

land's only run.

SAVE FOR RADATZ

Dick Radatz saved Boston's

victory for Earl Wilson as the

Red Sox tagged Al Downing

with his second loss. It was Ra-

datz' 29th appearance and 17th

in Boston's last 26 games.

Roger Maris and Bobby Rich-

ardson homered for the Yan-

kees.

Don Demeter had three hits

METAL COST RISES, UNIT COST DOWN

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Rising metal prices reflect both the increasing industrial demand and higher production costs. So far little of the rise has been passed along to the consumer. Manufacturers have been able to lower the labor cost per unit of output.

Thus basic commodity price increases in themselves don't necessarily spell general inflation.

Involved have been steel, aluminum, copper, zinc, lead, tin. The creeping advance has been stretched over the last 12 months.

At first the increases were on selected products in active demand. Weakness in other products has brought price cuts.

But basic metal prices are now beginning to rise. Latest are aluminum ingots which are going up half a cent to 24 cents a pound, or back to where they were in December 1962, but still short of the 26 cents a pound of September 1961.

CAUTIOUS APPROACH

The cautious approach in aluminum and some other metals has been dictated by competition both at home and abroad.

Many metal producers have indicated no hurry to cripple demand by pricing their products higher than the substitutes which increasingly plague them.

Technological advances have brought individual metals in competition with each other for particular uses. Price often can be the determining factor with purchasing agents.

ROUGH GOING

Metals also have had rough going in recent years as their markets were invaded by plastics, glass, concrete and wood.

Metals are peculiarly tied to developments in foreign lands. Sometimes this is surplus capacity to produce, so that foreign output rises automatically with world demand, leaving American producers right where they were competitively.

Often cheaper production costs abroad threaten American metal price structures.

A Lovelier You

By MARY SUE MILLER
CARE OF BRITTLE HAIR

It is said that the hair is the sturdiest form of human tissue.

What is this so, why then do so many locks dry and break off? Sometimes a physical disturbance is responsible. But the cause more often lies elsewhere. Hair dries out from abuse, such as unskilled coloring, excessive permanent waving and overexposure to sun or wind. Neglect—carelessness about shampooing, brushing and massage—also triggers dry conditions. So mistreated, the hair soon becomes so brittle it snaps.

To prevent or remedy the trouble, abuses obviously must be avoided. To recondition an already damaged head, here's an effective program:

- Gently brush each day with very soft, natural bristle brush. Also give scalp thorough fingertip massage.
- Shampoo weekly, using treatment suds. Lanolin formulas and mild shampoos, labeled for dry hair, are excellent. Cream rinses act to boost reconditioning. Some new shampoos combine suds and rinse. New rinses with protein are thought to have special protective properties.
- To moisturize the scalp, apply lanolin ointment or herbal tonic between shampoos.
- For polish and manageability, try protein setting lotions and sprays.
- Make an ally of swim caps, sun hats and loose sets.

When you can snap a hair in two and the snapped ends curl, you're cured. But don't expect the result without a long summer's work on the treatment.

SAYS POLITICS BEING PLAYED BY DEMOCRAT

HARRISBURG (AP) — The chairman of the Senate Education Committee says Minority Leader Charles R. Weiner is playing politics in "sniping at the Scranton Administration's record on education."

"Is the minority leader deliberately trying to confuse members of the Senate and the public?" Sen. Paul L. Wagner, R-Schuylkill, asked Tuesday in a floor speech.

"Certainly there is reason to think so," he declared.

Weiner, D-Philadelphia, has called repeatedly for more funds for state colleges and universities.

Wagner noted that appropriations for higher education have increased 30 per cent since Scranton took office—"from \$56 million to \$73.3 million."

Wagner also took issue with Weiner on statements that the administration had underestimated lapses and revenues and overstated anticipated expenditures for fiscal 1964-65 by \$61.5 million.

Weiner called on the administration to earmark the extra funds for education, health and welfare.

The Couriers Quartet of Harrisburg will present a program of sacred music at the Bendersville Methodist Church Sunday evening at 7:30 o'clock. The quartet has appeared nationally on radio and television and have been well received in their personal appearances. Rev. Max Cook, pastor of the church, invites the public to attend. There will be no admission but a free offering will be made.

Today In Washington

WASHINGTON (AP)—In the news from Washington:

RIFLES: The Army is keeping closer tabs on who buys its surplus rifles.

The office which promotes civilian marksmanship has centralized a listing of persons who purchase the rifles from the Army and who belong to recognized rifle clubs.

Authorities denied Monday the move came as a result of President John F. Kennedy's assassination by a sniper using a surplus Italian army rifle.

They said the actions stemmed from an increased volume of inquiries about persons and clubs authorized to draw weapons and ammunition from Army stocks for target practice and competition.

ROMANIA: The United States will talk over with its allies its tentative plans for selling two nuclear reactors to Communist Romania, a State Department spokesman said Monday.

State Department press officer Richard I. Phillips said there will be conversations in Paris with the committee of allies which coordinates trade with Communist countries with the general aim of blocking any goods of military importance.

DISTURBANCE: A group of Mississippi Negroes told a panel of educators, lawyers and writers Monday of suffering beatings, shootings and bombings in their state.

Some of the incidents came after Negroes attempted to register, they said.

The meeting, sponsored by the Council of Federated Organizations which plans a massive Negro voter registration drive in Mississippi this summer, was interrupted briefly.

A white man who identified himself as George Patler, 26, a member of the American Nazi party, leaped on stage, shouting for the Negroes to "go home. You're a bunch of filthy swine." Police arrested him.

ASK CHECKUP ON BOY WHO MADE THREATS

CAMDEN, N. J. (AP)—Attorney Francis Gazdzinski says he will file an application with District Judge Thomas Madden, asking that Michael Allen Young, 18, accused of the threatening of the life of President Johnson, be given a psychiatric examination.

Gazdzinski, Young's court-appointed counsel, said he would ask that the boy be sent to the Federal Psychiatric Center in Springfield, Mo. He said the boy is confused and was no help in preparing his defense.

U. S. Commissioner Charles L. Rudd continued Young, of Rio Grande, near Wildwood, N. J., in \$20,000 bail Monday pending grand jury action. He ordered the boy recommitted to Hudson County Prison in Jersey City, after officials of Salem County jail, where Young was held since his arrest last Thursday, requested that he be removed.

The boy is accused of sending a threatening letter to the president.

MECO And Union Sign Agreement

READING, Pa. (AP)—Representatives of the Metropolitan Edison Co. and the International Brotherhood of Electrical Workers have agreed to end the electrical workers' 18-day strike against the company.

More than 1,300 employees had been on strike.

The announcement Monday said the terms of the agreement include a wage increase of 3.68 per cent in each of the two years of the contract. Previous wage scales were not disclosed.

In addition to the company's request for a two-year contract, the agreement included approval of the union's request for a hospital care provision.

Mr. Paul L. Roy
Editor
Gettysburg Times
Gettysburg, Pennsylvania

Dear Mr. Roy:

The cooperation of The Gettysburg Times in covering the 11th Annual Conclave of the Grand Commandery of Knights Templar of Pennsylvania is greatly appreciated.

I want to thank you for all the courtesies extended to us. Carl Baum, Ellen Buehler and others of your staff gave our events excellent coverage, to say the least, but equally noticeable was the friendly and cooperative attitude evidenced by all members of The Gettysburg Times staff with whom we came in contact. Newspaper publicity of this type, handled in this manner, is a double treat.

It was a pleasure to meet you Sunday. I am sorry our get-together was so brief.

Sincerely,

SAFE WALKING TIPS

DON'T WALK BETWEEN PARKED CARS

Walking into the street between parked cars is a form of gambling. The stakes are your life.

If the street is clear of traffic, you are safe. If a car happens to be coming, chances are the driver will not be able to see you in time to stop.

The result? Another pedestrian accident, perhaps a fatality.

Don't take a chance. Always cross at the intersection, urges the American Automobile Association.

Open Shriver Home To Public

UNION MILLS, Md.—The Union Mills Homestead, in Carroll County, Md., occupied by the Shriver family continuously since 1797, will be opened to the public as a historic museum of Maryland rural life during the summer months from June 10 to September 10.

The 23-room homestead and adjoining brick mill, located on U. S. 140 north of Westminster contains furnishings, utensils, toys, tools and necessary items of daily living from almost every period of the nation's history.

Built by Andrew and David Shriver along the road from Baltimore, the long rambling mansion became a stagecoach inn, an early post office, a magistrate's office and headquarters for political activity in early Frederick County. During the Civil War, the Shriver family divided their loyalties, and entertained both Stuart's Confederate cavalry and the Fifth Corps of the Union Army within the same 24 hours during the Gettysburg campaign.

CONVERT OLD HOME

The original brick mill has been converted into a museum, exhibiting special displays of antique tools and machinery. This summer portions of the J. Howard Wert collection of Civil War relics will be on exhibit, and the original wood-carved mantels and paneled wood wall cupboards from the historic Forney house in Hanover, which was torn down some years ago, have been restored and erected in the mill museum. The homestead and mill museum are open daily and Sunday from 10 a.m. to 5 p.m. with guides and hostesses to escort visitors. Prof. Frederic Shriver Klein, present owner of the property, has been preserving the Shriver homestead with its original furnishings as a unique and genuine example of early Maryland rural living.

P. O. RETURNS LOST WALLET

BERKELEY, Calif. (AP)—The United States Post Office has returned Albert Washington's wallet to him, with the \$205 in cash he had in it, but it wasn't simple.

Soon after Washington lost the wallet in January, with the \$205 in a secret compartment, it reached the post office via a mail box.

They mailed it to his Oakland address with 18 cents postage due, but he had moved and left no forwarding address. So it went back to the post office.

After the required 60 days, workers stripped the wallet according to regulations and found the money. Postal officer Matt Higgins hunted around Washington's old neighborhood until he found someone who knew of his new address, and delivered the wallet and the \$205 to him here.

Higgins didn't even ask for the 18 cents postage due.

Economist Cites Features In Boys' Men's Sportswear

MRS. HELEN D. TUNISON

Extension Home Economist
Sporty and casual shirts, stretch slacks, and walking shorts are ready to help men and boys make their leisure hours more pleasant and enjoyable.

MRS. TUNISON

When adding to his wardrobe, a man or boy will find casual garments are sporting new colors, patterns, and construction features.

Boys' knit sport shirts gain their style from the athletic field. Through his sport shirt a boy can look like a junior tennis player, a sailing champion, or a football hero. Sports shirts inspired by the football jersey come complete with numbers. If a man wishes to be more conservative in his dress, he can choose the classic collared polo or golf shirt.

When selecting slacks, a man or boy should remember that stretch does not mean tight. The "give" in stretch slacks and walking shorts simply means comfort, not a leotard look.

WALKING SHORTS
This season, walking shorts take to stripes, Madras plaids, crazy-quilt patch Madras, batiks, seersuckers, denims, ducks, the linen look, and plain-colored poplins. Bermudas, Jamaicas, and short-shorts offer all the style details that slacks do.

From neck to knee to shoe top, men and boys can select sportswear loaded with color, pattern, and comfort.

Having too much to eat is probably the greatest nutritional problem in America today. In all age groups, from infants to adults, overweight is on the increase.

Of the school children surveyed in an Iowa study, 11 per cent of the boys and 17 per cent of the girls were very heavy or overweight. At college age, the percentage of overweight is even higher. A Cornell University study shows 23 per cent of the men and almost 36 per cent of the women in the freshman class were overweight.

WHAT ARE CAUSES?
What causes overweight? It's a combination of overeating, unwise attitudes about food, and poor food habits. Using food as a measure of sociability can also cause overeating. Some women look upon food as a sign of hospitality, so they serve too much food,

and encourage guests to overeat. Lack of physical exercise is another reason why many persons are overweight. Greater food intake coupled with less physical activity causes an imbalance between energy intake and output.

An overweight person can shed unwanted pounds, but it means he has to change his eating habits. He'll have to get rid of the habits that caused overeating and substitute food patterns that will help him keep his weight in check. Replacing high-calorie, low-nutrition foods with plenty of fruit and green leafy vegetables is one way to do this.

Women may like a vacation in the great outdoors, but they aren't much interested in roughing it.

FARM VACATION
Even though they may choose a farm vacation, the ladies still want some of the conveniences of home — indoor plumbing and hot water, as a minimum.

So to get the vote of the woman of the house, a farm vacation has got to offer her these two basics. She'd also like spotless linen and bedding.

As for the youngsters in the family, they are looking only for things to do — like horseback riding, hiking, fishing and swimming. Older folks prefer to just sit around a rural atmosphere, look at the scenery or stroll around the farm.

And everyone likes good food. The most successful vacation farm offers its guests a variety of good, wholesome food.

One farm family in Adams County, the Charles K. Lott family listed in the Farm Vacation brochure for Pennsylvania. If you are interested in a farm recreation enterprise the extension service can aid.

Americans spend some \$40 billion a year on recreation. A good part of the money pays for outdoor recreation. With incomes on the rise and work weeks getting shorter, there should be even more money flowing back into the hills in the next decade or so.

There is, of course, a catch. Recreation, like farming, is not an easy way to make money.

WALLACE SEES EARLY REPEAL OF RIGHTS BILL

MONTGOMERY, Ala. (AP)—

Gov. George C. Wallace of Alabama says that if the civil rights bill is enacted, "it will be repealed in two to four years."

"I'm not advocating disobedience of any law," Wallace said in an interview. "But people, North and South, are going to resent and resist this. It will take a police state to enforce it."

"It's a severe attack on private property and free enterprise, and when people realize this the law will be repealed in two to four years."

Wallace said he is convinced that feeling over the racial issue was an important factor in Sen. Barry Goldwater's victory over Gov. Nelson A. Rockefeller of New York in the California Republican presidential primary June 2.

NEW YORK'S PROBLEMS

As for Rockefeller's state, Wallace said: "New York already has all those civil rights laws on the books and New York has more problems today than any other state in the union."

Answering a question, he said he has no plans to organize a nationwide movement to work for repealing the civil rights bill if or when it becomes law. "I won't put myself up for that," Wallace said, "but I'll do my part as best I know how."

Judging from Wallace's out-of-state mail, it appears that he has won much support for his position on civil rights.

Since he entered Democratic presidential primaries in three states, an aide said, nearly 250,000 letters have come to him. Wallace got 27 per cent of the vote in Wisconsin, 34 per cent in Indiana, and 42.7 per cent in Maryland.

WIDE SUPPORT

Examination of the letters and telegrams showed they came from virtually every part of the nation.

Many originated in large Northern cities where racial problems have arisen in the past year. Many others, however, bore the postmarks of small communities.

"Had I known I was going to do so well in those primaries," Wallace said, "I would have gone into California."

He said he intends to go into more states seeking to win unpledged electoral votes.

"It is conceivable that you could get enough electoral votes to hold the balance of power as to who is and who is not going to be the next president," Wallace said.

Airman Frederick E. Bevenour, son of Mrs. Marian L. Bevenour, 14 W. High St., New Oxford, has completed the first phase of his Air Force basic military training at Lackland AFB, Texas. He has been selected for technical training as a medical specialist at the Air Training Command (ATC) School at Greenville AFB, Miss. His new unit is part of the vast ATC system which trains airmen and officers in the diverse skills required by the nation's aerospace force. Bevenour is a 1960 graduate of Delone Catholic High School, McSherrystown.

HONG KONG (AP) — The Beatles spent all day Tuesday in their hotel rooms, available only to their tailors.

A hotel spokesman said members of the British rock 'n' roll quartet ordered 10 suits.

VATICAN CITY (AP) — Pope Paul VI, in one of the bluntest speeches of his year-old reign, has told Italian industrialists the materialistic concepts of early capitalism must be overcome in the interest of a "more peaceful, more brotherly society."

Vatican sources said the Pope was speaking against efforts to misuse religion to discourage legitimate labor protests.

In his speech to the Congress of Christian Industrialists and Business Managers Monday, Pope Paul blamed Communists and those who prize wealth above all else for many of society's ills.

KUBITSCHKEK BANNED FROM BRAZIL ARENA

By EDGAR MILLER

RIO DE JANEIRO, Brazil (AP) — New political turmoil threatened Brazil today because of the purge of Juscelino Kubitschek, banned from politics for 10 years to keep him from getting the presidency again.

President Humberto Castello Branco signed a decree ousting Kubitschek from his Senate seat and removing the political rights of the powerful political leader who had been the leading contender for the presidency in October 1965.

The suave former society surgeon joined more than 200 persons whose political rights have been suspended since President Joao Goulart and his leftist regime were overthrown April 1. Former Presidents Goulart and Janio Quadros, who resigned in August 1961, also have lost political rights.

"THEY FEAR ME"

"My enemies fear me because they are afraid of the manifestation of the people," said Kubitschek, "and thus with this brutal act they (the government) remove me from the road of elections—which are the only valid manifestation in a truly democratic regime."

The ouster could prompt Kubitschek's Social Democratic party, largest in Brazil, to withdraw support from Castello Branco's government. A party spokesman said party leaders would meet to decide on a course of action.

Several thousand supporters massed outside Kubitschek's apartment house in Rio Monday night, singing the national anthem and cheering the former president. They carried him through the streets on their shoulders.

AVERT CLASH

A clash threatened when followers of Kubitschek's old foe Carlos Lacerda, governor of Guanabara State and a rival presidential candidate, arrived and began jeering. They dispersed when the Kubitschek crowd continued to grow.

Kubitschek came to prominence as governor of Minas Gerais State during the final term of Getulio Vargas, who committed suicide in August 1954.

Campaigning for president on a pledge to make Brazil an industrial giant, he was elected and launched his regime with Goulart as vice president on Jan. 31, 1966.

As president, he opened Brazil's doors to foreign investment,

Commission Hears Of Oswald's Tours

WASHINGTON (AP) — State Department officials begin testifying before the Warren Commission Tuesday about the travels and activities of Lee Harvey Oswald, accused of assassinating President John F. Kennedy.

The commission obtained written reports from the State Department some time ago but now wants to get first-hand accounts from those who dealt with Oswald or handled various questions within the department concerning his travels and Communist associations.

The commission hopes to complete its report by the end of this month.

Social Security

Q. I've been receiving benefits for a few years. I was offered a part time job which would pay me \$1,500 a year. Does it pay me to take the job since I lose some of my benefits?

A. Since you lose \$1 in benefits for each \$2 in earnings between \$1,200 and \$1,700, you lose only \$150 in benefits by earning \$1,500. By working you are increasing your total income for the year by \$1,350.

Q. My wife and I both started working part time after we started receiving social security benefits. We each earn only \$1,200, but a friend said that since our earnings are \$2,400, we will lose some benefits. Is this correct?

A. No, it isn't. You and your wife are each permitted to earn up to \$1,200 in a calendar year without losing any benefits.

Q. Where can I get information to estimate my social security benefits?

A. You may telephone or call your nearest social security office or write for a free booklet which tells how to estimate your benefit. Ask for Pamphlet 855.

Q. I am 65 and will retire in May. I have been supporting my mother for the last five years. Will any additional benefit be payable to her?

A. Not now. There is no provision for benefits to the dependent parent of a living wage earner. In the event of your death, however, a parent's benefit may be payable to her if her dependency can be established.

Q. I have been getting social security benefits for two years but plan to go back to work this year. When should I report this to social security?

A. When you return to work and find that your earnings will be over \$1,200 in the year, you should immediately report this to the social security office.

U. S. RANCHER, FAMILY ARRIVE IN ALEUTIANS

UNALASKA, Alaska (AP)—

doughty Montana ranch family has arrived safely at its sprawling new holdings on the side of an inactive volcano on this island far out on the Aleutian chain.

"It took us 11 days and five hours," Rufus Choate, late of Miles City, Mont., said Monday. "The weather was very good all the way. The sea was exceptionally calm."

Choate, who is 52, his wife, his daughter, Susan, 20, his sons, Jim, 19, and Ted, 10, and his combination first mate-ranchhand, Jack Graham of Clatskanie, Ore., weighed anchor May 22 for the long voyage north through the Inside Passage to Ketchikan, Alaska, west across the Gulf of Alaska to Kodiak and then down the Aleutians to Unalaska.

They set sail in a 96-foot wooden vessel which was built in 1891 as a fire boat and was rebuilt into a small freighter and used many years between Seattle and Alaska. Aboard were 500 sheep, five saddle horses, five pigs and a banty rooster.

Choate expected no difficulty and ran into none. He figured that his navigation experience as an airplane pilot, and Jack's as a motorboat charter skipper in Alaskan waters would get them there.

Choate sold seven sections of land he ranches for years near Miles City and leased 265,000 acres from Uncle Sam on Unalaska.

He said things were getting too crowded around the Montana cow town. He didn't have room to spread out.

"When you can hear your neighbor's rooster crow," he said, "it's time to move."

Choate hopes to sail back to Seattle a couple more times before the weather gets too rough in September and haul back more sheep and cattle. Eventually he wants 2,000 sheep and 100 head of yearling cattle on his big island spread.

Drop biscuit dough may be "dropped" onto a baking sheet or into small-size muffin (cupcake) pans. Usually these drop biscuits need 10 to 12 minutes in a very hot oven.

Electric Heat Is So Much Cleaner than any other kind. Mrs. Curry is particularly aware of this benefit. She notices that there's no oily film on walls, curtains or furniture. Her house stays clean and new-looking with less work.

Individual Room Temperature Control is one of electric home heating's biggest advantages. Separate thermostats in each room allow the Curry family to adjust temperatures for different needs.

Safe, Noiseless Electric Home Heating is an especially good choice when there are children in the family. As Mr. and Mrs. Curry point out, the noise made when heating pipes expand and contract can frighten children when they're alone in the house. Noiseless electric heat eliminates this possibility.

Comfortable Electric Heat adapts perfectly to a modern family's way of living—as the Currys have discovered.

"Flameless Electric Home Heating Gives Us Draft-Free Comfort Throughout The House"

Mr. and Mrs. Lynn B. Curry, Jr. of Mount Wolf tell why they're well pleased with electric heating

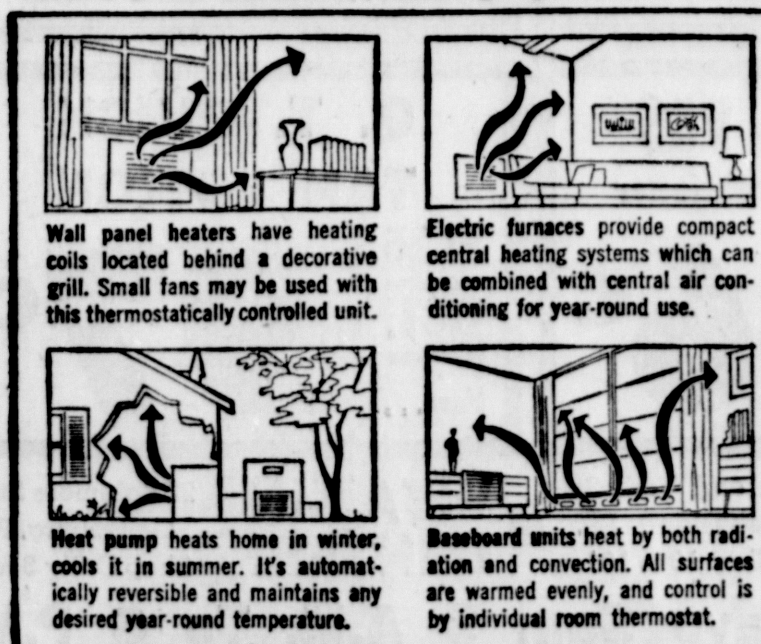

"Heat is available where, when and as we want it," say Mr. and Mrs. Curry, talking about what they consider one of the primary advantages of electric heat. "We can have extra heat in the bathroom, less in the bedrooms — because the temperature in each room is thermostatically controlled."

"Electric heat adapts to the design of a home—whether it's contemporary or traditional—without conflict. In fact," Mrs. Curry continues, "our electric heating system was arranged after we selected the design for our

home. The design didn't have to be changed to fit the heating plant. We like the absence of pipes or ducts and the resulting extra space."

This is one of the more than 2300 electrically heated homes in this area. All have the benefits of a truly modern heating method . . . at very reasonable cost. If you are planning to buy, build or remodel or replace your present heating system, you'll find it worthwhile to get the full story on electric heat. See a Reddy Kilowatt Recommended Electric Home Heating Dealer, or call your nearest Metropolitan Edison Company office.

There's An Electric Heating System Just Right For Your Home

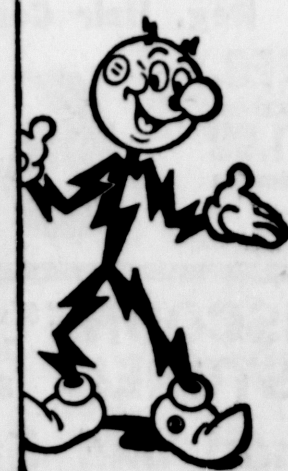

Wall panel heaters have heating coils located behind a decorative grill. Small fans may be used with this thermostatically controlled unit.

Electric furnaces provide compact central heating systems which can be combined with central air conditioning for year-round use.

Heat pump heats home in winter, cools it in summer. It's automatically reversible and maintains any desired year-round temperature.

Baseboard units heat by both radiation and convection. All surfaces are warmed evenly, and control is by individual room thermostat.

FILM BECOMES A CINDERELLA BUCKING ODDS

By BOB THOMAS

HOLLYWOOD (AP) — Last year it was "David and Lisa." This year "One Potato, Two Potatoes" is the Cinderella movie.

Both films were created against great odds by two movie makers using unknown actors and authentic backgrounds. Both were treated like orphans until film festival honors stirred interest in their commercial possibilities.

"One Potato, Two Potatoes" was made by two veterans of Hollywood television — producer Sam Weston, 36, lookalike brother of comedian Jack Weston, and director Larry Pierce, 34, son of famed tenor Jan Peerce. Yet the film is not of Hollywood, nor does it deal with a subject that the major studios would ordinarily touch.

TWO-YEAR ORDEAL

Its theme is miscegenation. A white Midwestern divorcee with a daughter marries a fellow factory worker who is a Negro. Her first husband appears after having deserted her, and he sues for custody of the child. The judge decides in favor of the father.

Weston told about the two-year ordeal in getting "One Potato, Two Potatoes" financed, filmed and finally looked at.

First came the matter of money. With a large assist from Larry's mother, an expert fund raiser for charity, the two boys lined up a list of likely backers. They had to sell the prospects on contributing, then return to collect after they had organized as a limited partnership.

Filming started last August on the script, written by veteran author Raphael Hayes. It was shot in 34 days at Painesville, Ohio, which Weston remembered from his youth as a "typical, Grant Wood type of Midwest town." Actors were recruited from Hollywood and New York and in Painesville as well.

The novice film makers' troubles weren't over. After putting the movie together, they found they couldn't sell it.

"Distributors liked the picture but they didn't know what to do with it," said Weston. "And they were worried about losing the Southern market."

But an agent liked the film and showed it to British Lion, which bought the world rights. Then came the Cannes Film Festival, where "One Potato, Two Potatoes" drew the biggest ovation in nine years and Barbara Barrie was co-winner of the best actress award. Now Weston and Peerce are ready to reap the rewards of their adventure.

Rocky Puts His Autograph On Bag

CLEVELAND, Ohio (AP) — New York Gov. Nelson A. Rockefeller was picking his way through autograph seekers in a hotel lobby when a woman thrust two books at him for his signature.

"That's a pretty tough choice," the governor said Monday as he stared a moment at the books — "Six Crises" by former Vice President Richard M. Nixon and "Profiles in Courage" by the late President John F. Kennedy.

Instead of signing the books, the governor scrawled "Rocky" on a department store bag and gave it to the woman. Rockefeller is here for the 56th annual National Governors Conference.

REDS CAPTURE YANK DOWNED IN LAOS JUNGLE

VIENTIANE, Laos (AP) — The Communist Pathet Lao was reported Tuesday to have captured a U.S. Navy jet pilot shot down on a photo-reconnaissance mission over the jungles of central Laos.

Reliable sources said the Pathet Lao headquarters in Khang Khay informed its officials in Vientiane of the capture of Lt. Charles F. Klusmann, 30, of San Diego, Calif., who had parachuted from his Crusader jet fighter on Saturday.

Pathet Lao officials in Vientiane declined to confirm the report. An air search continued for Klusmann.

CONTINUE AIR SEARCH

A U.S. helicopter rescued Cmdr. Doyle W. Lynn of La Mesa, Calif., Monday and flew him back to the aircraft carrier Kitty Hawk in the South China Sea. Lynn's Crusader was hit Sunday while he was escorting a reconnaissance mission.

The Pathet Lao has held another American flier, a civilian, for nine months. Eugene Debrun of Kaukauna, Wis., a flier for the Air America charter company, was captured last September when his transport plane was shot down in southern Laos.

NEUTRALISTS WITHDRAW

Neutralist Laotian forces were believed slowly pulling out of a hill position northwest of the Plaine des Jarres region under Communist artillery and mortar fire.

A high neutralist military source said his troops were still holding sections of the high ground around Phou Koutt, but that he did not expect them to hang on much longer.

PAPUANS WANT LBJ TO RULE TINY ISLAND

By KEITH WILLEY

PORT MORESBY, New Guinea (AP) — Anti-Australian Papuans on New Hanover Island are raising a fund to buy President Johnson.

They want the American president to take over their little island 300 miles northeast of Australian New Guinea. They expect him to bring vast riches.

To swell their purchase fund, they are refusing to pay the head tax of \$4.48 a year. The movement reportedly has 2,500 members.

The Australian administration has sent District Commissioner Mick Healey and more than 40 armed police to New Hanover from neighboring New Ireland Island. New Hanover has a population of 8,000 Papuans and a dozen uneasy whites.

The head of the President Johnson Cult is a 20-year-old Papuan "prophet" named Bosmialek who worked for a U.S. Air Force survey team on New Hanover earlier this year.

PROMISES OVERTHROW

Healy said Bosmialek has told his followers that 600 U.S. troops will arrive June 16 on the Queen Mary with several helicopters to help throw out the Australian administration. He said the cultists have prepared three landing sites for the helicopters.

During the recent House of Assembly election, the cultists refused to vote when told they could not vote for President Johnson.

Bosmialek's followers believe Johnson will send ships loaded with cargo for their use. Bosmialek said early this year the first ship would arrive on April 10. A U.S. survey ship due in New Hanover on that date was hastily diverted to New Ireland.

New Hanover and neighboring islands have been the center of pro-American cults since American troops were stationed on them during World War II. A U.N. mission two years ago heard witness after witness ask that the United States replace Australia as the governing authority.

Lower Barriers At Univ. Of Alabama

TUSCALOOSA, Ala. (AP) — Segregation barriers at the University of Alabama, where Gov. George C. Wallace staged his brief "schoolhouse door" stand last year, have been lowered further.

The school now has three Negro women registered for summer session classes. Vivian Malone of Mobile, one of the two Negroes admitted under federal court order in June 1963, has been joined by Ruth Benella Lewis of Birmingham and Velma Thompson, a Tuscaloosa high school teacher.

Mrs. Lewis and Mrs. Thompson are taking graduate work.

Networks May Pool Election Coverage

NEW YORK (AP) — Officials of the three major television networks have conferred on a proposal for pooling coverage of the November election returns.

A morning session was held Monday in the offices of the Columbia Broadcasting System and an afternoon session at the National Broadcasting Co. The American Broadcasting Co. also participated.

Later, network representatives conferred with The Associated Press about the possibility of the AP being included in the pool.

No decisions were reached pending further discussions on how the pool would operate, how returns would be gathered and distributed and what the cost would be.

The networks said the discussions were continuing.

SAY IKE URGED "SOFT PEDAL"

CLEVELAND (AP) — A telephone call from former President Dwight D. Eisenhower stopped Gov. William W. Scranton of Pennsylvania from going on the air Sunday with a strong declaration of candidacy, authoritative sources report.

After talking to Eisenhower, Scranton was reported to have scrapped a prepared statement that would have gone further than the one he delivered.

Eisenhower reportedly was displeased over the way the news got out about their talk at Gettysburg, Pa., Saturday and over suggestions that he might have a hand in a move to block the drive of Sen. Barry Goldwater of Arizona for the GOP president.

Goldwater Is Eying Easterners For Ticket

By WALTER R. MEARS

WASHINGTON (AP) — Sen. Barry Goldwater—standing on the threshold of the Republican presidential nomination — is eying four Eastern GOP leaders as he thinks about a running mate.

To his closest associates, Goldwater has mentioned these names as possible vice-presidential choices:

—Pennsylvania Gov. William W. Scranton.

—Sen. Thruston B. Morton of Kentucky.

—Rep. William E. Miller of New York.

—Gov. James A. Rhodes of Ohio.

Goldwater hasn't ruled anybody in or out of the running, a source close to the Arizona senator said today.

But Goldwater has said he thinks the Republican National Convention will want to balance the ticket—if he heads it—with a moderate Republican from the East.

The four men associates say Goldwater has mentioned all fit that pattern.

Publicly, Goldwater usually bypasses questions about a vice-presidential choice. "I'm looking for delegates, not vice presidents," is his stock reply.

He has talked about Scranton, suggesting the Pennsylvania governor would be well advised to consider the vice-presidential nomination.

HAS EYE ON '68

That way, Goldwater said Sunday, if the ticket lost, the governor would be in a position to capture the presidential nomination in 1968.

Scranton questioned whether a ticket pairing him with Goldwater would make sense. He said they would disagree on how best to implement some Republican principles.

But Goldwater described their areas of disagreement as very minor.

With his delegate strength mounting steadily toward the 655 votes he needs for the nomination, Goldwater was said by an aide to be viewing the vice-presidential spot in terms of

PENSION BILL TO GOVERNOR

HARRISBURG (AP) — Legislation to broaden coverage of Pennsylvania's blind veterans' pension program went to Gov. Scranton today for his signature, as the Senate agreed to a July 1, 1963, retroactive date.

The House wrote in the retroactive date earlier this month, but the Senate balked at the amendment, sending the measure to a conference committee.

The bill, one of five included in a special session called by Gov. Scranton last February, extends the \$50 a month pension to veterans blinded by sickness and disease as well as wounds.

The Senate at first rejected the retroactive clause on grounds there would not be enough money to finance the payments.

However, the joint Conference Committee recommended the July 1, 1963 date be retained. The Senate and House agreed Tuesday, the House on a vote of 181-0, The Senate 49-0.

CONFIRM COMMISSIONER

HARRISBURG (AP) — The Senate has confirmed the appointment of Lester F. Burlein of Honesdale to the Pennsylvania Turnpike Commission.

Burlein, former Wayne County Republican chairman and ex-deputy secretary of highways, was named to the turnpike post Jan. 7 by Gov. Scranton. He will serve until June 4, 1973 at a salary of \$15,000 a year.

how best to strengthen the ticket next November — not with an eye to building his convention power.

An Associated Press survey now puts his delegate total at 540—with indications he could push it past the nominating number next week.

Efforts to blunt his drive appeared to have collapsed at the National Governors Conference in Cleveland.

NBC'S SALUTE TO OLD GLORY WINS PRAISES

By CYNTHIA LOWRY

AP Television-Radio Writer
NEW YORK (AP)—Just about everybody loves a parade with its stirring music, bright uniforms and the sight of Old Glory snapping in the breeze.

Tuesday night only a comparative handful of television viewers, those with access to color sets, could fully savor the spine-tingling sights in NBC's affectionate salute to the flag, a program called "The Red, White and Blue."

Most of those who saw the program found a sober, well-intentioned hour full of lofty sentiments and imaginative camera work, but all in white, black and gray. It was the color — brilliant reds and blues and greens — that turned the program into a memorable experience.

20 PCT. OWN FLAG

The program concentrated on a few patriotic events. One was an all-out Independence Day celebration held annually in Faith, N.C. population 493, which attracts 30,000 visitors.

Another was a loving Memorial Day observance in the burial ground of Noank, a small Connecticut town whose children know the names and deeds of Noank men who gave their lives in many wars. There was a memoir of Ellis Island as the camera's eye wandered over the deserted crumbling buildings occupied only by the ghosts of other days.

Here and there the program tossed out a question about an America "so flag-shy that Barbara Fritchie would be put down as a neighborhood eccentric," Narrator Walter Brennan pointed out that only 20 per cent of all Americans even own a flag.

But except for suggesting that flag-waving went out of fashion because it was done by "some mighty strange people," including Communists, American Nazis and the Ku Klux Klan, the program failed to diagnose the cause of the nation's apparent apathy about its flag.

"CBS Reports" tonight will be treating the subject of the constitutional guarantee of a citizen's right to keep and bear arms by examining two case histories of murder weapons. Because they are both still in the California courts, the program will not be seen either in Los Angeles or San Diego.

SOVIET SPACE WOMAN GIVES BIRTH TO GIRL

By HENRY S. BRADSHAW

MOSCOW (AP) — The World's only space woman, Valentina Nikolayevna Tereshkova, gave birth to a daughter last Sunday, the Soviet news agency Tass announced today.

The baby's father is Soviet spaceman Andrian Nikolayev, who orbited the earth in August 1962, with Lt. Col. Pavel Popovich. Valentina orbited the earth in company with Valery Bykovsky in June 1963.

Both mother and daughter are well, Tass said.

Usually reliable sources said the baby weighed nearly 7 pounds.

WED IN NOVEMBER

Valentina and Nikolayev were married in Moscow last Nov. 3 and spent their honeymoon touring South Asian countries.

Although the baby is the first born to an astronaut couple, Gherman Titov was the first astronaut to become a father after orbiting the earth. His wife gave birth to a daughter, Tanya, last September.

Valentina, whose married name according to Russian custom is Nikolayevna-Tereshkova, is 27. Nikolayev is 34.

Three days ago the doctor for the Soviet astronauts, Dr. Evgeny Petrov, reported that Valentina was in the best of health. During her pregnancy she has been studying at the Military Aeronautic Engineering Academy and recently passed examinations in English and mathematics.

WEDDING ON TV

The astronauts were married in a televised white wedding at the flower-decked Palace of Marriages in Moscow. At the reception afterward, with Premier Khrushchev as host, the newlyweds were given a "symbolic present" by Soviet military leaders. It was a little doll — a girl.

Khrushchev said he was a sort of foster father to the young couple, both of whom lost their fathers during World War II.

"I didn't bring any baby buggies or pacifiers," he told them. "If you have a baby, the gifts won't fail to come."

All Soviet space pilots were on hand for the wedding, which got more public attention than any Russian marriage since Czar Nicholas II married Queen Victoria's granddaughter in 1893.

Propose RR Beds As Truck Roads

HARRISBURG (AP) — Efforts are underway in the Senate to promote a legislative study into the possibility of converting rarely used railroad beds into highways for trucks.

The proposal, introduced Tuesday by Majority Whip Albert R. Pechan, R-Armstrong, Republican Floor Leader James S. Berger and George N. Wade, R-Cumberland, was referred to the Committee on Rules.

Pechan said the unused roadbeds could be filled in to provide good highways for truck travel as well as trains, taking trucks off heavily traveled roads to relieve traffic congestion.

MONTREAL (AP)—The Detroit Red Wings of the National Hockey League announced Tuesday the appointment of Eddie Bush as manager-coach of the Memphis Wings, Detroit's new farm club in the Central Professional Hockey League.

The announcement, made at the current NHL annual meeting, said Bush was given a two-year contract.

Bush, 45, had a long career as a player and was with the NHL Wings one season.

Johnson said the fine and suspension were for "excessive abuse" to umpire Andy Olson, during the second game of a doubleheader with the Springfield Giants.

2,000 Are Driven From Homes In Montana Flood

By BURL OSBORNE

GREAT FALLS, Mont. (AP) — Flood waters chased at least 2,000 persons from their homes here Tuesday night after leaving 30 or more dead and hundreds homeless upstream.

Gov. Tim Babcock estimated damage from the flood, Montana's worst, at \$10 million. President Johnson declared seven northwestern counties a disaster area.

In the northwest, hit first by the three-day flood, waters receded and rescue teams started mopping up.

EVACUATE 3,000

The Sun River crested 11 feet over its flood stage of 12 feet at midnight in this city of 70,000. A spokesman for the Air Force and National Guard's rescue operations estimated 2,000 to 3,000 persons were evacuated from homes here and in the flooded areas to the west and north.

Tom Sullivan, manager of a Red Cross shelter, said he had made records of about 1,300 persons evacuated from homes west of Great Falls and from an exclusive residential area surrounding a country club and golf course. The shelter is in West Side Junior High School, where more than 200 residents slept Tuesday night.

The 14th Street bridge in Great Falls held fast despite a heavy pounding by water, trees, parts of farm buildings and other debris.

A natural gas pipeline under the Sixth Street bridge burst with a shudder that was felt by onlookers.

Air Force teams said they rescued at least 200 persons from rural areas. The Air Force was using Malmstrom Air Force Base at Great Falls for a headquarters for 11 helicopters and other craft.

Pilots made 38 flights Tuesday and were prepared to take additional supplies to flood victims evacuated to other areas.

At least 400 were homeless in the northwest counties of Cascade, Chouteau, Flathead, Glacier, Pondera, Teton and Toole, those designated for federal disaster relief. Hardest hit was the Blackfoot Indian Reservation.

Highway 2 was opened to East Glacier, the eastern gateway to Glacier National Park, and U.S. 89 was opened for the first time since Monday, allowing rescue operations to reach Babb, near the Canadian border.

A road was opened south of Browning to the Two Medicine Creek, but washed-out bridges and roads still had the Birch Creek area isolated. It was the Swift Reservoir dam on Birch Creek that broke Monday, sending a 30-foot wall of water downstream.

Asks Overhaul Of U.S. 30 In This Area; Heavy Use

HARRISBURG (AP) — State Sen. Stanley G. Stroup, R-Bedford, has called for a major overhaul of U.S. 30 across Southern Pennsylvania.

Stroup was the major sponsor Tuesday of a resolution urging the State Highways Department to look into the possibility of reconstruction and relocation of parts of the road.

"One of the amazing oversights in highway planning in Pennsylvania has been the failure or purposeful refusal to consider improvement, relocation and reconstruction of the Lincoln Highway," Stroup declared.

"The turnpike is rapidly approaching inadequacy, and failure to recognize this fact will seriously threaten the future economy of our Commonwealth," he said.

"Traffic on Route 30 has increased tremendously during the last 15 years. Unless definite planning is undertaken immediately the safety of the motoring public and our future economy are being placed in serious jeopardy."

Stroup's proposal came just one week after Sen. George N. Wade, R-Cumberland, called for construction of a new interstate road between Pittsburgh and Philadelphia.

Wade's measure, referred to the Committee on Highways, asks the U.S. Bureau of Public Roads to discontinue counting the 300-mile turnpike as part of Pennsylvania's quota in the interstate highways system.

Sen. Robert O. Beers, R-York, proposed a resolution that would reroute part of the proposed highway to include York and Lancaster Counties.

AF Test Fires Missile Tuesday

VANDERBERG AIR FORCE BASE, Calif. (AP) — The Air Force fired a missile it picked at random from among the nation's combat-ready Minuteman missile bases.

The missile and its crew were sent to Vandenberg for the reliability test.

Crewmen fired it Tuesday—and it lifted off perfectly and streaked west down the Pacific missile range toward an undisclosed target area 5,000 miles away.

Boy, 4, Fatally Wounds His Father

LOS ANGELES (AP)—Police say a shot fired by a 4-year-old boy fatally wounded his father. The father, Leonard Thierry, 32, forced his son, Glen, to shoot him after threatening to spank the boy with a belt, police reported.

Thierry died Tuesday. He and his wife had quarreled Sunday night. She left home. Thierry asked two of the couple's older children to shoot him in the head. They refused.

Glen also refused until threatened with the spanking.

After the shooting, officers found Mrs. Thierry and returned the children to her care.

UNCLE SAM FILES

THOMASVILLE, Ga. (AP)—Uncle Sam took on the role of a private citizen here and complained about his water bill.

The director of the Veterans Administration domiciliary, E. C. McDaniel, told city officials the domiciliary's water bill had jumped 84 per cent under a new rate plan and he urgently needed an adjustment.

Otherwise, he said, he would be compelled to readjust his budget to the extent of firing at least one employee.

The commission took the request under consideration with a promise to provide relief if possible.

ning at 8:40 o'clock with the sophisticated comedy hit "Dear Charles." The production will play nightly through June 20, with a matinee on Wednesday.

"Dear Charles," by Alan Melville, was originally written by an American. It became an immediate hit in France. Then it crossed the English Channel to repeat its success in London and finally came back across the Atlantic as a vehicle for Talulah Bankhead for a season on Broadway.

Producer Putsch has signed petite Arline Sanders, a well-known actress from Hollywood, to portray the vivacious widow of "Charles," who has raised her three children with only the benefit of a portrait on the wall and her talent as a novelist. The four men who figure prominently in her life are portrayed by Jonathan Troy and Arden Kiser, veterans on the Totem Pole stage, and newcomers Breddan Fay and Brent Sargent. Her grown children will be played by Tom McKenna, Karen Johnson and Mark Lonow. Others in the cast will be Betty Knepper, Chambersburg; Maren Flanagan, Lois Pearlman and James Pike.

Knife Saves Life Of Boy Lost 3 Days

ATLANTA, Ga. (AP)—A 15-year-old Atlanta youth was recovering Wednesday from injuries after he fell from a 75-foot tower and spent three days in a wooded area before he was found.

Police said the clue that saved Eugene Harold Thraill's life was the knife he stuck in the ground at the tower's base before he started to climb it.

Searchers found the knife Monday night and concentrated the hunt in that area. Thraill was discovered Tuesday in dense underbrush.

Doctors said the youth suffered a slight concussion, a dislocated hip, cuts and bruises. His condition was described as satisfactory.

PROTESTS POLISH POLICE ACTION

WARSAW, Poland (AP)—U.S. Ambassador John M. Cabot has protested to Polish authorities that plainclothes police roughed up the U.S. Air Force attache here last month.

An informed source said the attache, Col. George Carey of Boston, Mass., suffered a bruised and scratched arm, his shirt was torn, and his camera case was damaged in scuffles on May 23.

Western military attaches in Poland are constantly shadowed but this was the first reported incident involving force.

It was said to have started when Carey noticed outside the U.S. Embassy that he was being followed by plainclothesmen and started to photograph them.

The source said two agents ran up to the colonel and made several unsuccessful attempts to take his camera from him.

PRESTWICK, Scotland (AP)—A U.S. Air Force fighter pilot who survived a crash and 13 hours on a tiny life raft died today soon after being pulled from the Atlantic 420 miles off the Irish coast by the crew of the weather ship Juliet.

The flier was Capt. James H. Davis, 32, of Washington, D.C. Capt. Roy L. Dehart of Oak Ridge, Tenn., an Air Force doctor flown to the rescue vessel attributed Davis's death to exposure.

BOY GOING TO COLLEGE AT 12

COCOA, Fla. (AP) — Billy Green, who is failing his fifth grade subjects, is going to college this summer.

Billy, 12, scored 200 on an intelligence test administered by the University of South Florida. The genius category starts at 140.

County school Supt. Woodrow Garden says Billy reads eight to 12 advanced science books a week but struggles with his fifth grade work, perhaps because it doesn't challenge him.

The board of Brevard Junior College voted Tuesday to allow Billy to enroll in one course.

Billy, son of Mr. and Mrs. William C. Green of Eau Gallie, Fla., probably will take a mathematics or science course.

"We want to determine what kind of program he should have," said Garden.

JOB FINISHED, U.N. SOLDIERS LEAVE CONGO

By ROBIN MANNOCK

LEOPOLDVILLE, the Congo (AP)—Lights burn late at U.N. headquarters in Leopoldville. Senior officers of the world organization's Congo army wear harassed and even guilty looks. The Congo apparently is heading for dark and violent days, but they are getting out. By June 30, the Congo's fourth independence day, the last of 3,405 U.N. soldiers from 12 nations will have gone home, their job finished.

Finished? In Kivu, on the Congo's eastern border, Communist-backed pygmy-like Bafulero warriors routed five companies of Congolese soldiers and threatened Bukavu, the provincial capital.

At Albertville, capital of North Katanga, a short-lived revolt against Provincial President Jason Sendwe took more than 100 lives. Wives of two U.N. civilians were raped.

SMALL TOWN

Farther west, young warriors invaded the South Kasai town of Mwene-Ditu and murdered five citizens by forcing them to swallow pill-pili, a tiny, fiendishly hot red pepper used to season food.

To the north, Stanleyville, once the late Premier Patrice Lumumba's area and still a hotbed of extremism, seethes with discontent. The central government has named a resident minister to supervise Provincial President Paul Isembumba, deposed by his provincial assembly but reinstated by Leopoldville.

In the center, Peking-trained ex-Education Minister Pierre Mulele leads a rebellion in Kivu. His warriors also burn and kill in neighboring provinces.

In Leopoldville, nightfall turns more than 1.2 million people in to prisoners inside their homes.

A dusk-to-dawn curfew is the government's answer to plastic bomb attacks against churches, electric power installations and the capital's railroad to the sea. Saboteurs made an unsuccessful bid to blow down the wall of Makala prison in broad daylight.

Across the river in Brazzaville, capital of the Congo's sister republic, exiled extremists plot Premier Cyrille Adoula's violent overthrow, bribing soldiers to act as hired assassins.

"These are the darkest days since 1960," declares one high U.N. officer, recalling the Congolese army mutiny only seven days after independence which sent the country into an orgy of killing, looting, raping, destruction and secession.

That brought the United Nations here.

Its rank and file soldiers do not try to conceal their impatience to be gone. Departure dates are ringed with red on wall calendars.

26 First Graders Publish Best Seller, Plan Re-run

CHICAGO (AP) — There's a new book on the market today at the University of Chicago, but the 26 authors will have a problem signing the first editions.

The authors, First Graders, are still learning how to print their names. The 26 precocious members of Mrs. Judy Jones' first-grade class at the university's laboratory school decided in November that, along with learning to read books, they'd like to write and publish one.

After seven months of almost daily work, 150 copies of the gaily colored, magazine-size book, entitled "Interesting Stories," rolled off the press two weeks ago. Proud parents snapped them up. The book is now headed for a second printing. "All schools and classrooms are concerned with writing and reading stories," said Mrs. Jones, 27. "We just took ours a little farther."

The students collaborated in writing and illustrating five stories for the book, ranging

from "Julie and Jane's Adventures in School" to "How We Got Our Freedom."

Another story tells of the adventures of Sammy, who lived on the moon "in a big crater that they had made tunnels through."

DICTATED STORIES

The stories were dictated to Mrs. Jones, who said the idea behind the book came from Mrs. Farrand Ennis, whose daughter is in the class.

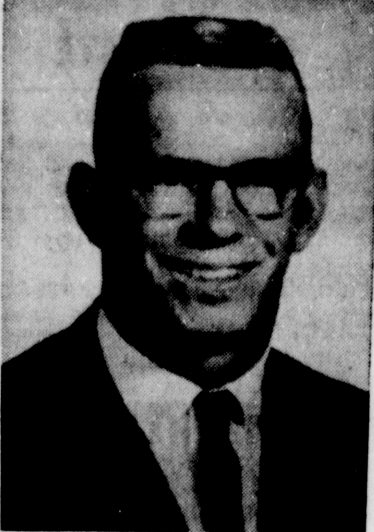

"The purpose of the project was to expose the children to the experience of learning how books are produced," said Mrs. Ennis, who works for a neighborhood newspaper, the Hyde Park Herald.

Mrs. Ennis told Don McCabe, design editor of the newspaper, of the project and he volunteered to help ready the book for publication.

But if life seems complicated for McCabe, author Sarah Ennis, 6, takes it in stride. "It's just make believe," she told The Associated Press. "The whole thing's just make believe."

Author Jeff Johnston, 7, said what he liked best was "when I was asked to put autographs in the books."

To Study Law

Robert E. Campbell, son of Mr. and Mrs. Ellis Campbell, Biglerville, who graduated from Ursinus College at Collegeville, Pa., received the Bachelor of Arts degree in Political Science. In September he will enter law school at Wake Forest College, Winston-Salem, N. C.
